Friend Hurt!

Rescue Squad members are grateful for every check and gift to the Squad's drive for a new ambulance, The fund total reached $14,062.00 this week. One check came from Hilda Moore whose brother, Bill Moore, was seriously injured in the car shown above. When Bill was hurt he had friends there within minutes to help him. . . Rescue Squad members W.C. Hubbard and Jack Williams, Bill is still hospitalized at Memorial Hospital, Lynchburg and his car is a total loss, but he can be sure of one thing. He has the support of friends when he needs them and the same is true for county residents and out-of-county people, too, if they have occasion to need emergency help.

Wool Sales Must Be Documented For Incentive Payments

Wool producers must have sales documents for shorn wool and unshorn lambs in order to earn incentive payments for 1970 marketings, according to J. P. Alvis, Jr., Chairman of the Appomattox Agricultural Stabilization and Conservation (ASC) Committee.
Sales of both wool and unshorn lambs may be included in a single application for payment.
The chairman emphasized that purchases of all unshorn lambs must be reported when application is filed for wool incentive payment. Lambs purchased in ewe-lamb pairs must be included.
An important eligibility requirement is 30-day ownership. Producers must own for at least 30 days unshown lambs on which they apply for payment, and sheep or lambs sheared to produce the wool on which they apply for payment.
Mr. Alvis said lamb feeders and others who trade in sheep or lambs should keep records which clearly establish compliance with the 30 - day ownership requirement if they plan to apply for payments under the wool program.
Application for wool incentive payments may be made by producers at their county ASCS office through January 31, 1971. Wool delivery expenses, as well as any other marketing expenses, not shown in the sales documents should be reported at the time application is made for incentive payments.
Under the National Wool Act all producers who market wool and mohair in 1970 are eligible for incentive payments. Shorn wool payments to a producer are equal to a percentage of his returns from sales. The percentage is that required to raise the national average price received for shorn wool by all producers up to 72 cents a pound. Mohair payments are determined in a similar manner, with the national incentive price set at 80.2 cents a pound.
